This project of the Parish Council is being aided and supported by **Community First** who are being funded from Malvern Hills District Council as a pilot project within South Worcestershire.

## Future Pendock

### Do you enjoy living in Pendock?

*Which Pendock features would you like to see continue in the future?*

*Are there things you would like to change?*

*Would you like to have more of a say in what is going on around you?*

All over the country people are sharing their views about the places where they live

The Localism Act contains a number of proposals to give local authorities new freedoms and flexibility.

Now it is Pendock's turn

The first steps are being taken towards drawing up a Parish Plan to be known as

***'Future Pendock'***

## What is *Future Pendock*

Shaping *Future Pendock* is all about your hopes, wishes and ideas for the village you live in.

The things that matter to us all should be recorded, together with our hopes for the future.

It's about producing a vision.

*Future Pendock* will be this record.

## Why is it important?

*Future Pendock* will be a guide for decision makers and help ensure our wishes are known. For example:

- If we apply for a grant for a village project, and our plan shows that there is support in the community, this will add weight to the application.
- Parts of *Future Pendock* can feed into the District Local Plan, which in turn will feed into wider plans.
- It can and will make a difference: other parishes have already proved it works!

## What could it cover?

This is about the way we live together as a community.

It could cover:

- The future of our local school
- Footpaths and open spaces
- Traffic and transport
- Broadband speed
- Community activities and provision for all ages
- Gaps in services (health, shopping, Village hall, communications etc)
- Housing
- Environmental issues
- The way our Parish looks
- Flooding and drainage

By sharing our ideas to create a Parish Plan we will be in a better position to protect and defend what we have as well as getting high quality decisions for all those in the community.

## What happens next and how can I get involved?

The process will start with talking to individuals and various organisations and groups in the village, finding out people's views of –

**Your three best things about Pendock**  
and

**Your three biggest areas for improvement**

This is an opportunity for everyone in the community to shape the future of Pendock, the more feedback you give, the more dynamic and effective the community plan will be.

There will be consultations at village events.

There will be a public meeting at a date to be agreed where you can express your views and learn more.

Your answers will be used to produce a questionnaire to be sent to every household. In turn results from the questionnaire will be used to draw up the final *Future Pendock* document.

**Your views will create the Vision**
