

Stage 2 Consultation for Pensax Parish Project

Working Principles

1. The responsibility for the decision-making and disposal of these funds solely lies with the PCC. The area of benefit and consultation included Pensax, Menith, Stockton (PMS)
2. This is a consultation exercise. All results are advisory.
3. This consultation provides a mandate for the PCC to act towards these goals. However, some of the issues may be resolved in other ways, may be impossible to resolve or, for unforeseen reasons, be impossible to progress by the PCC. In these cases, the mandate focuses on the next most important issue.
4. The funds should be used so that the capital asset, or share, remains the inalienable property of PPC. As such, any disposal in the future should return capital funds to the PCC for reuse.
5. We have established what issues are relevant to the residents in Stage 1.
6. Despite advertising, there will be those that do not engage with the PCC and will not take part.
7. Cllrs may support / campaign for projects.

Process

Stage 2

1. A workable shortlist was agreed by Pensax Parish Council on the **17th January 2023**.
2. Purdah starts on **28th March**.
3. The conclusion of Stage 2 is **4thst May**.
4. This process should establish clear priorities for PPC and the weighting that the parishioners assign to these issues.
5. Pensax Parish Council should not act on the results of this consultation until after the election and the Parish **AGM 16th May 2023**.
6. Parishioners will be invited to help deliver this mandate alongside the PCC.
7. Mandated issues can be acted on simultaneously if they do not impact each other and Pensax Parish Council agrees we have the funds, time & resources for both.
8. There will be an annual review of the list at the following Parish AGM 2024.

The weighting of the issues by residents will be collected electronically and on paper.
