6) MATTERS ARISING

- Brickyards Lane – Culvert

The Chairman advised members that this had now been re-established and that the culvert on the opposite side of the road had also been cleared and maintained.

- Location for the new VAS

District Councillor Ward advised members that the company supplying the VAS had received information that the battery life was shorter than originally thought and had given the council three options, continue purchase with the now shorter battery life, change to the solar powered option for no additional cost or cancel the order. Following a discussion, the members decided to go with the solar power upgrade as long as a 2-year warranty could be obtained.

The Chairman advised members that a location for the VAS should be decided so that progress on this could be made as soon as the new VAS is received. The Clerk suggested that members should consider locating the new VAS north bound and prior to the Williamson Way/Shrubbery Road junctions as this is where the majority of the complaints received were about. The members discussed this and there was concerns raised regarding a suitable post. The Chairman asked the Clerk to liaise with WCC Highways to see if a suitable post/location could be found in that area.

- Bovis Play Park meeting – revised date

The Chairman advised that this meeting would be held on Tuesday 11th June with The Chairman, The Clerk and Cllr Wild attending. There will be a report back at the July meeting.
