Tree Warden's report to Parish Council meeting 28th November 2019

I attended a one day course on Basic Tree Survey & Inspection at Cirencester run by the Royal Agricultural University on Wednesday 30th October. It provides the knowledge to be able to identify a hazardous tree, determine the level of risk and decide on an appropriate course of action

We held a working party at the spinney on November 3rd. Nine people attended and we made considerable progress.

Another one is planned for Saturday 7th December at 10 am. A notice is in the December copy of The Sphere. Nick Denley can provide wood chippings for the narrow access path; there will be no charge.

Matt Cooper informed me that his father made the plaque that is to be displayed in the spinney. His mother believes she may have some records relating back to the time it was planted.

I suggest that a meeting with Martin Cooke be held to discuss the exact line of the hedge which is due to be planted in March.
