Chapel Meadow Planning Application (13/01157/OUT) –Update.

Since the last Parish Council meeting there have been a number of developments in this application with new documents published on the MHDC website. We have responded to most of these documents and most of our comments are also on the website. The following notes very briefly summarise the additional information and refer to the available documents on the website –I have put their titles in bold and included the dates on which they became available on the website, though these are often very different to the dates when they were written.

- At the November Council meeting I summarised the discussions held at a meeting between myself, Andrew and Brian F with Sam Silcocks (the then MHDC planning case officer) and Bob Hughes (South Worcestershire Land Drainage Partnership). You will recall that at the insistence of Bob Hughes and ourselves it was agreed that the developer would be asked to arrange the submission of a land drainage report.
- The above report became available on 06/12/2013 and ran to 32 pages. It was prepared by Robert West Consulting and undertaken as a desk exercise, there was no site visit. It did propose some detail for the development site itself but failed to address the fundamental issues that we (and others) had raised –see **Flood Risk Assessment –additional info (06/12/2013)**. We were given a short time for re-consultation and made our comments within a few days, these are on the website as **Comments Alfrick and Lulsley Parish Council (24/12/2013)**. It was also agreed that the decision date of December set by MHDC for this application would be postponed.
- This was followed by a comment **South Worcestershire Land drainage** Partnership (16/12/2013) (Bob Hughes) which was highly critical of the Robert West Consulting report and recommended that further investigation was required. Bob Hughes had made a site visit and carried out a basic survey of the drainage system at the field/road boundary. We have commented briefly in support of this report.
- At around this point we became aware that our case officer (Sam Silcocks) had left MHDC planning and been replaced by Lucy Parsons. We have exchanged emails and are trying to make arrangements for a meeting with her.
- The next report came from Chris Lewis-Farley –**MHDC Landscape Officer (24/12/2013)**. Note. This report was actually dated 11th October ie, prior to the date originally set for the decision but only became public on Christmas Eve. This report looked at the visual impact and the Great Crested Newt issue and suggested that the planning application be withdrawn until the applicant can show that there is no satisfactory alternative to this development or that suitable mitigation has been proposed. We have commented on this report but it has not yet been loaded to the MHDC website.
- A further report **Worcestershire Wildlife Trust (30/12/2013)** from Steve Bloomfield, Conservation Officer, Planning comments on the impact of the development on the wildlife but is less critical of the planning application than the one from the Landscape Officer.
- In addition we have written to our two District Councillors asking for their support in opposing this planning application; drafts of these letters were circulated to members prior to their being sent as was our response to the Landscape Officer's report

If you are able to find time to have a look at the above it will save time at the next meeting as we can all start from the same point.
