**District Councillor Havemann-Mart's Report** 

## Parish council report March 2022

Meon vale, aware of the situation and working with Wychavon on the planning details

Asset of community value going to pannel this month

## **Ukrainian crisis**

Many residents are asking us how they can help people affecting by the war in Ukraine. We have set up a page on our website to try and pull the various appeals for donations going on into one place.

Our Community Development team has been asked to talk to the Voluntary and Community Sector to support the efforts of our communities. The Ukrainian flag will also be flown outside the Civic Centre from next week. www.wychavon.gov.uk/support-for-Ukraine.

## Give safely to help people in Ukraine

The Charity Commission and Fundraising Regulator have urged the public to 'give safely' to registered charities helping and supporting those affected by the invasion of Ukraine.

By giving to a registered, regulated charity, the public can have assurance that their funds will be accounted for in line with the charity law framework. Established charities with experience of responding to disasters are usually best placed to reach victims on the ground.

People looking to donate to causes working in Ukraine and neighbouring countries should make a few simple checks before giving:

- Check the charity's name and registration number at www.gov.uk/checkcharity
- Make sure the charity is genuine before giving any financial information
- Be careful when responding to emails or clicking on links within them

• Contact or find out more online about the charity that you're seeking to donate to, or work with, to understand how they are spending their funds

• Look out for the Fundraising Badge on charity fundraising materials – this is the logo which shows that a charity has committed to fundraise in line with the Code of Fundraising Practice

We encourage people who want to give to visit the Disasters Emergency Committee

website: https://www.dec.org.uk/appeal/ukraine-humanitarian-appeal

### FCC update

We are pleased to report we now have a plan in place to restart our bulky waste collection service. A media release will be issued next week with the details and you are welcome to share it using your own channels.

Discussions about restoring other affected services are progressing well and we hope to have some news on that shortly.

### Abbey Park, Pershore barrier

Work to install the barrier around Pershore's Abbey Park will begin in the week starting 14 March. This follows the public consultation we did last year which showed support for the principle of a barrier. We are grateful to councillors for Pershore who have worked with officers to help tweak the design to make sure it fully reflects the concerns and comments raised in the consultation.

The consultation results will be live on our website at the start of next week and a media release announcing the start of work will be sent out too.

### **Boundary Commission consultation reminder**

The Boundary Commission for England's consultation on a proposed new map of Parliamentary constituencies is now open and will run until 4 April.

A review of parliamentary constituencies is taking place to ensure each one has roughly the same number of electors (between 69,724 and 77,062). As part of this process, the number of constituencies in England will increase to 543. The Boundary Commission want members of the public to share their thoughts on the proposed new constituencies, so they can improve them.

To have your say, please submit your comments by 4 April via the consultation website – www.bcereviews.org.uk – or by email or letter.

You can provide feedback on anything, from where the proposed boundaries are, to the Boundary Commission's suggestions for new constituency names.

Further information and resources are available:

- Guide to the 2023 Review
- Guide to the public hearings

### **Natural Networks Webinar**

The Natural Networks Programme has been extended until June 2023 and will continue providing advice and financial support to help organisations improve Worcestershire's wildlife habitats.

On 30 March, between 6.30pm and 8.30pm, there will be a free webinar explaining the Natural Networks Programme, introducing the team, providing information on the support available, and showcasing some of the projects that have benefitted from their advice and funding. The event will feature a short presentation on woodland creation and maintenance and will end with a question-and-answer session.

<u>Visit this link to book your place</u>. For further information please email Katie Ainsworth or Lucy Mayo.
